MBM Aerocut nanoMax

MAAERONANO

The MBM Aerocut nanoMax is a digital print finishing system with Tri-Suction Feed Mechanism. Featuring the InstaSet bar and colour touch screen with Flex Mode for accurate slitter positioning. With new quick-release rollers and components, cleaning is easy! In case of a paper jam, this feature assists in a quick recovery.

Patented Tri-Suction Feeder

The feeding mechanism reduces risks of double feeds and mis-feeds drastically, therefore preventing paper jams inside and enhancing productivity.

Aerocut Nano Max

Digital print finishing system

Features

The nanoMax is equipped with a color touch screen. Cut mark registration and image shift & stretch compensation function help an operator to make fine adjustments to digitally printed stocks.

The bar indicates and aligns slitter positions accurately and can be easily adjusted manually without tools. Built-to-order bars are available for custom sized jobs, at lower cost compared to “slitter cartridges”.

The AeroCut nanoMax comes with a one year license of Lytrod’s Intellicut AeroCut nano Edition software. This software is a groundbreaking approach to efficiently operate and manage your document workflow. Add artwork & variable data to easily impose and seamlessly create PDF layouts with job setup details and cut marks for the AeroCut nanoMax.

- Quick & easy tool-free slitter position settings with InstaSet Bar and new Fine Adjustment Knob
- Skew adjustment
- Cut-mark registration
- Double feed detection
- Intuitive touch screen operation
- Image shift & image stretch compensation
- 31 Preset jobs with 4 Factory InstaSet Bars included
- 80 custom job memories
- Easy access to slitter units and paper exit
- Quick and easy maintenance
