AEROCUT Velocity - Air Feeder

MAAEROVELO

The Aerocut Velocity is the refined model of the Aerocut Classic slit/cutter/creaser and features enhanced productivity and user-friendliness. Feeding is an important and essential part for any print finishing device. This machine has an innovative patented feeding mechanism, that drastically reduces the risk of double feeds and mis-feeds. An optional perforating unit is located inside for an accurate registration. The Velocity is twice as fast and includes more adjustments than base Aerocut Classic with a greater sheet capacity.

Patented Feeding Mechanism

The patented “Tri-Suction Feeding Mechanism” reduces the risk of double feeds and mis-feeds drastically. Therefore it prevents paper jams and enhances productivity.
