CreaseStream Card Creaser Deluxe

MACREASESTREAM

It is now possible to manually hand wind up to 5 creases simultaneously through the CreaseStream Card Creaser Deluxe. This rate easily outperforms the manual hand fed matrix creasing units that are currently on the market.

The innovative creasing technology used in the CreaseStream Card Creaser will produce excellent quality creasing that eliminates fibre cracking 100%.

Micro Perf Capability

Micro Perf capability can be added to this equipment with the Micro Perforating Tool (SKU: MACREASESTREAMPERF). Check with your Southwest Business sales representative.

Features

- Outperforms old technology by up to 6 times!
- Can process over 6000 creases per hour
- Produces a wider range of quality creases on a full range of digital stocks
- Perfect crease registration, every time
- Produces excellent quality creasing that eliminates fibre cracking 100% by making use of softer and patented creasing devices that gently manipulate and prepare the area of stock so that cracking does not occur during the folding stage.
- Flexibility to produce either 4pp or 6pp book covers, greetings cards, menus, leaflets and brochures etc.
- Ideally suited for stocks between 100 gsm and 350gsm.
- Can accommodate up to 5 wheels in one pass. Sold with 2 wheels. Additional wheels sold separately.
- Additional accessories (sold separately) include:
 - Tri-Creaser double score device
 - Micro-Perforating wheel
 - Spine & Hinge creasing device
 - Single cutting wheel
 - Creasing ribs/rings for different thicknesses of paper.
