PT 33SC Slit/Cut

MAFSPT33SC

Slit and Cut in a single pass with the PT 33SC. Do away with fixed cassette card cutters with adjustable slit design that offers more versatility. Pre-set templates offer an efficient solution for switching between jobs without the need to remove cartridges or accessories. Lead edge registration makes for more accurate cutting from sheet to sheet vs. traditional guillotine cutting. Simplify the cutting process with the PT 33SC.

User-Friendly LCD Display

The PT 33SC features an easy-to-use control panel with LCD display and keypad, and cuts sheets from 8.2" x 8.2" up to 13" x 26".
