## Plastikoi Inserter CI-3000 Electric

MAPKCI3000

The industrial roller inserter is a useful and powerful tool for a quick binding solution. The PBS Industrial Roller Inserter is a dual roller with a heavyweight steel frame. The compact design is capable to handle up to 350 books per hour, accommodating coil diameters from 6 mm up to 32mm with no binding edge limit. It is engineered for accurate position against the rollers with no complication when the coil follows the book.

### Easy to Use

The flat top surface caters as an additional workstation, either stack or store unfinished or finished products on top. The solid frame can virtually fit on any table and countertop. Stop rolling the coil by hand; quickly move on to the next project with the PBS Industrial Roller Inserter.
