## Revo-T14 Automatic Encapsulation Roll Laminator

MARLREVOT14

The Revo-T14 is a fully automatic encapsulation laminator that combines automatic feeding, laminating and cutting in one machine. Paper feed holds up to 300 sheets and runs automatically with just the push of a button. The Revo-T14 includes a six roller system (2 steel) that allows for consistent quality with thin and thick paper stocks. With a short warm up time of five minutes and four heated rollers, encapsulation is easy, fast and consistent - saving valuable time for other tasks.

## Convenient Storage

Optional cabinet/stand with hinged door keeps supplies and film conveniently stored.
