Greenwave 16" Free Standing Perforator

MASHGREENWAVE410

The Greenwave 430 Cardboard Perforator has the solution to help you transition away from single-use plastic and foam packing materials. The Greenwave 430 perforates cardboard at up to 40 feet per minute, up to 16.9" wide, and up to .79" thick. Standard features include an all-metal cabinet, heavy-duty solid steel blades, rugged metal gearing, an easy-to-use measuring scale, and a molded plastic waste bin for collecting particles.

Environmentally Friendly

The Greenwave 430 produces perforated cardboard netting, customizable to match the size of the object and the box.

Greenwave 430

Cardboard Perforator

Features

- Set the cutting guide, press start button and feed the cardboard
- Adjustable cutting guide allows for perforating the ideal size to match the product and shipping box
- All-metal housing and all metal gearing for heavy duty use
- Solid-Steel blades easily perforate cardboard up to .79" thick, up to 16.9" wide
- Heavy duty casters make the unit portable
- Heavy-duty molded plastic waste bin collects particles produced during perforating for a clean work environment
- Transforms cardboard that would otherwise be discarded into high-quality packing materials
- Reduces the cost of purchasing single-use plastic or foam shipping materials, as well as the cost of waste disposal
- Perforated cardboard netting is flexible, shock absorbing cushioning which can be wrapped around products to protect from all sides. It can also be used to fill empty space in shipping boxes.
