— From Bindings to Branding —

## WireMac Combo (Wire & Cerlox) Manual

MAWIMACPBWI

DuoMac is a revolutionary binding equipment that allows you to create two different types of binding with one single machine, thanks to its two independent punching die sets. DuoMacs versatile and easy to use features allow you to create professionally and elegantly bound books/reports/catalogs, while its heavy duty all metal construction gives you the dependability you need; so you can finish your important project on time, every time.

### Exceptional Functionality

All dies can be independently disengaged to allow the punching of any size document.
