— From Bindings to Branding —

## TAPE & THERMAL BINDING

Six different makes and models that can handle your print finishing needs.

Southwest helps you by taking in your used equipment as a trade-in towards the purchase of brand new equipment

Interested in upgrading to new equipment, but you're not sure what to do with your existing one? Do you have equipment lying around that you are no longer using? Want to save even more money on the purchase of new equipment?

We will consider all trade-ins regardless of what you are buying. Looking for a new laminator, but need to clear out space by removing the binding equipment you are no longer using?

We can take care of that for you.

### ■ One-touch Binding

Simply put the strip and book block in the binding machine and press the green button choosing the correct strip setting (Fastback 9 model).

### ■ Choice of Strip Bindings

This versatile machine uses LX-Strips, LX -Comp Strips and Image Strips which may be custom printed with your logo (Fastback 9 model).

### ■ Easy Operation

Super easy one-touch button, LCD display and identifies the exact binding strip before automatically adjusting the settings (FB 20 model).

### ■ Versatile Cooling Rack

The document cooling rack can sit as a standalone unit, or, when space is at a premium, can be mounted atop the machine itself (FB 20 model).

#### ■ Three Timed Cycles

Choose the correct time cycle of 30, 45, and 60 seconds depending on thickness of the book being bound (Super T80 model).

#### ■ Resin Binding

Heating is required to liquify the resin, gravity forces the papers into the softened resin which will solidify once it has cooled (Unibinder 8.2 model).

#### ■ Speedy Cooling

After crimping, the cooling compartment speeds up the time needed for the resin to solidify (Unibinder 8.2 model).

#### ■ Easy and Fast

The UniBinder 120 is the newest technology for easy binding of your documents and is designed for office use. Bind, crimp and cool in seconds.
